

Product specification

Product	Mouse-anti-Llama heavy-chain IgG2/3 (H-chain) Antibody (Biotin)
Reactivity	New World Camelids
Clone	NEM17.11
Host	mouse
Clonality	monoclonal
Conjugate	Biotin-conjugated
Subclass	IgG1
Size	150 µL
Antibody concentration	1mg/ml
Application	ELISA
Buffer	PBS (pH 7.4), 0,02% sodium azid
Antibody specificity	Based on ELISA the antibody reacts with whole molecule llama IgG2/3. It does not react with the Ig of rat, mouse, human, sheep, goat, chicken, bovine and horse.
Purity	The antibody was purified from culture supernatant by affinity chromatography using Protein A coupled to sepharose. Purity >95% as determined by SDS gel electrophoresis.

Fig.: ELISA Plates were coated with the different subclasses of llama IgG and detected with NEM17.11. Llama IgG2 and IgG3 were detected.
